Elias C. Stavropoulos received his B.Sc. in Mathematics in 1994 and his Ph.D. in Computer Science from the University of Patras, Greece. Since 2003, he has been an Adjunct Lecturer and Assistant Professor at the University of Patras, University of Peloponnese, and TEI of Western Greece, and a Tutor-Counselor at the Hellenic Open University (HOU). He has been a research associate and coordinator of e-CoMeT Lab of HOU and a research associate of the Big Data Analytics & Anonymization Laboratory of HOU. Currently, he is the coordinator of the Network and Information Services Office of HOU. He has many years of experience in open and distance education, as an instructor, an author, a reviewer and a curator of printed and digital educational material for adults' distance learning. He has participated in several EU and national research and development projects as a senior researcher in the areas of combinatorial optimization, knowledge discovery and information retrieval, and also as a Moodle platform administrator and course creator, website designer and developer, and programmer. He has co-authored 43 scientific papers, published in international journals and conferences with more than 500 citations in Google Scholar, and two books for Data Science using R (in Greek). His recent research includes educational data mining, learning analytics, association rule hiding, privacy and anonymity in big data, and e-learning technologies and methodologies.
